### **MOBILE AUTO DETAILING CONDITIONS OF APPROVAL**

Washing and detailing of vehicles is regulated by both the City of Compton Zoning Ordinance and the Federal Clean Water Act. These regulations limit auto detailing to businesses that are specifically licensed for that activities and have met State and Federal standards for wastewater discharge.

The City cannot issue a permit that allows an individual to detail vehicles at their home, on the street or in commercial or industrial parking lots. The only permit the City can issue for mobile auto detailing allows the licensee to operate a home office with the following conditions of approval:

1. The certificate of occupancy and business license is for office use only and does not permit on-site advertising, sales, warehousing, storage of commercial vehicles or commercial use of the garage. **NO AUTO DETAILING SERVICES WILL BE PROVIDED ON SITE.**
2. Auto detailing services may only be provided for residential customers where the vehicle to be detailed will be a private vehicle and will be detailed at the customer's home.
3. No auto detailing services will be provided on any public street, alley, parking lot or right-of-way.
4. No auto detailing services will be provided on any commercial or industrial property.

I have been informed that commercial auto detailing is subject to the provisions of the National Pollution Discharge Elimination System and it is my responsibility to prevent any discharge or runoff of wastewater into the City's sewer or storm drain system that might result from auto detailing activities.

I HEREBY AGREE TO THE ABOVE DESCRIBES CONDITONS:
